Important notices

Upgrade requirements

Upgrade requirements for specific software products are as follows:

- TRAKiT.Net requires .NET framework 4.0
- CentralSquare Mobiles and eTRAKiT users require IIS with .NET framework 4.6.1

Installing updates

To install updates, run the following installation programs:

1. Run TrakitRuntime.exe. This program installs updates that support changes to third-party systems.
2. Run TRAKiT_Server_Update.exe. This program installs the TRAKiT.Net release changes.

The installation also requires downloading the Microsoft OLE DB Driver for SQL Server to your database server and, in your web.config file for all .NET applications, changing the SQL Provider from SQLOLEDB to MSOLEDBSQL. The CentralSquare Installation team makes these updates.

If you have any questions about installing updates, contact the CentralSquare support team at 833-278-7877 (833-CST-SUPP).

Map support

Esri discontinued support for MapObjects integration for Esri maps. You must use the TRAKiT.Net Silverlight integration for displaying maps. If you currently use MapObjects, contact the CentralSquare support team to request assistance in migrating to Silverlight for displaying maps. TRAKiT.Net and Silverlight are quality-tested using .NET framework 4.0.
